**EDUCATION**

<b>University of California, San Francisco (UCSF)</b> Ph.D. Biomedical Sciences; Focus on Immunology, Virology, and Microbial Pathogenesis NSF GRFP, NIH T32, UCSF Discovery and BCMM Fellowships	San Francisco, CA <b>9/2019-Present</b>
<b>Colgate University</b> B.A. Molecular Biology with Highest Departmental Honors, <i>Summa Cum Laude</i>	Hamilton, NY <b>8/2013-5/2017</b>
<b>National Institutes of Health (NIH)</b> Colgate-NIH Off-Campus Study Program; Part-time Researcher	Bethesda, MD <b>6-12/2016</b>
<b>University of Oxford</b> Biomedical Sciences Off-Campus Study Program	Oxford, UK <b>1-6/2016</b>

---

**RESEARCH EXPERIENCE**

<b>Biomedical Sciences Ph.D. Student</b> <i>UCSF, School of Medicine, Department of Microbiology and Immunology</i> Advisor: Dr. Joe Bondy-Denomy <ul style="list-style-type: none"><li>Defined the mechanism of the bacterial immune system 'CBASS' that is the ancient origin of the human cGAS-STING system.</li><li>Discovered one of the first anti-CBASS proteins in bacterial viruses (phage)</li><li>Identified, curated, and established native model systems in <i>Pseudomonas aeruginosa</i> with new bacterial immune systems</li></ul>	San Francisco, CA <b>7/2019-Present</b>
<b>Post-Baccalaureate Research Fellow</b> <i>NIH, National Institute of Allergy and Infectious Disease (NIAID), Laboratory of Immunoregulation, HIV Immunovirology Unit</i> Advisors: Drs. Tae-Wook Chun and Anthony Fauci <ul style="list-style-type: none"><li>Quantified and interpreted changes in HIV dynamics from human phase I clinical trials evaluating the anti-<math>\alpha 4\beta 7</math> antibody and combination anti-HIV antibodies</li><li>Examined the impact of ART interruption on the HIV reservoir and immunity</li><li>Managed clinical specimens from ongoing observational trial of 750+ patients</li><li>Featured on Colgate-NIH website: <a href="https://youtu.be/fQeRZpTUY5E">https://youtu.be/fQeRZpTUY5E</a></li></ul>	Bethesda, MD <b>6/2017-8/2019</b>
<b>Undergraduate Student Researcher</b> <i>NIH, National Cancer Institute (NCI), Vaccine Branch, Immune Biology of Retroviral Infection Section</i> Advisor: Dr. Marjorie Robert-Guroff <ul style="list-style-type: none"><li>Examined longitudinal B cell response in the bone marrow of 60 non-human primates vaccinated against Simian Immunodeficiency Virus (SIV) infection</li><li>Translated research into senior thesis presentation to jury of 3 Colgate professors and department of ~15 researchers</li></ul>	Bethesda, MD <b>6-12/2016</b>
<b>Undergraduate Student Researcher</b> <i>Colgate University, Department of Biology</i> Undergraduate Researcher; Advisor: Dr. Barbara Hoopes <ul style="list-style-type: none"><li>Interpreted genome-wide association studies and identified 2 candidate genes with mutations associated to growth and development in domesticated dogs</li><li>Performed DNA sequencing and bioinformatic analysis to confirm variation in ALSM1 gene is associated to body size measurements in 35 domesticated dogs</li></ul>	Hamilton, NY <b>5-12/2015</b>

---

**SCIENTIFIC SKILLS**

- Data Analysis:** Experimental design, graphical and statistical analyses
- Experimental Biology:** Mammalian and bacterial cell cultivation and viral infection, plasmid construction and cloning, targeted and whole genome sequencing (WGS), immune function assays, flow cytometric analyses
- Genome Engineering:** CRISPR-Cas, allelic exchange, and homologous recombination of bacterial
- Bioinformatics:** Genetic and structural homology, structural predictions and modeling, WGS analyses

## TEAMWORK AND LEADERSHIP

### Board Member and Volunteer

*Women's Global Empowerment Fund (WGEF); <https://wgefund.org/>*

Denver, CO  
**8/2009-Present**

- Non-profit org. empowering women in Uganda through socioeconomic, agriculture, and health initiatives
- Coordinated grant research and submissions with the WGEF founder
- Facilitated 5 fundraisers at Denver-based locations and events
- Assisted with the 2016 opening of the Gulu Women's Resource Center
- Traveled to Uganda in 2015 and 2016 to support the WGEF founder, staff, and clients with Annual Drama Festival, Gulu Women's Resource Center, and Health Periods Initiative

### Director and Member

*UCSF, Immunologists for Gender Equity (IgEquity); <https://immunox.ucsf.edu/igequity>*

San Francisco, CA  
**9/2019-Present**

- Student-led org. promoting gender equity in the UCSF Immunology Program
- Restructured mission, initiatives, and partnerships to be more inclusive and welcoming of underrepresented gender minorities
- Managed 20+ member team with students, postdocs, and faculty
- Developed IgEquity Endowment (\$2M goal) to ensure the organization has sustainable, multi-generational support

### Member

*Solving for Science; <https://solvingfor.org/>*

San Francisco, CA  
**12/2022-Present**

- Non-profit org. solving problems related to collaboration, inclusion, engagement, and efficiency in science
- Invited to join the org. and collectively solve gender inequities and inequalities with scientists across the country

## COMMUNICATION

### Coordinator and Mentor

*UCSF, Biomedical Sciences Peer Mentoring Program*

San Francisco, CA  
**9/2019-2021**

- Student-led org. developing intergenerational relationships that elevate experiences of first year PhD students
- Restructured peer mentoring framework and expectations to be more inclusive
- Coordinated DEI mentorship training, surveyed students, and matched mentor-mentee pairs for 60+ students
- Applied these mentorship skills to 11 students a graduate and undergrad level

### Teaching Assistant

*UCSF, Critical Thinking and Science Communication Course*

San Francisco, CA  
**1-3/2020**

- Guided 6 students on written proposal and oral defense, facilitated scientific discussions and office hours, and provided final feedback and grades
- All students successfully passed the course

### Presenter and Advisor

*UCSF, National Science Foundation (NSF) Workshop*

San Francisco, CA  
**9/2020-22**

- Led informational workshop and brainstorming session for first year PhD students
- Provided feedback on 20+ student proposals with written and in-person

## SELECTED PRESENTATIONS

1. **Huiting E** et al. Bacteriophages inhibit and evade cGAS-like function in bacteria. Poster at Symposium on the Immune System of Bacteria. Weizmann Institute, Tel Aviv, Israel. 2023.
2. **Huiting E** et al. Bacteriophages antagonize cGAS-like immunity in bacteria. Invited talk at Innate Immunity Working Group. UCSF, San Francisco, CA. 2022.
3. **Huiting E** et al. Bacteriophages antagonize cGAS-like immunity in bacteria. Selected talk at Biomedical Sciences Graduate Program Retreat. Asilomar, CA. 2022.
4. **Huiting E** et al. Bacteriophages antagonize cGAS-like immunity in bacteria. Poster at Molecular Genetics of Bacteria and Phages Meeting. UW-Madison, WI. 2022. Awarded outstanding poster.
5. **Huiting E** et al. Bacteriophages antagonize cGAS-like immune function in bacteria. Selected talk at Bay Area Microbial Pathogenesis Symposium. UCSF, San Francisco, CA. 2022.

## SELECTED PUBLICATIONS

Author links for complete listing: [Google Scholar](#), [PubMed](#), [bioRxiv](#)

\*: Co-author

1. **Huiting E\***, Cao X\*, et al. Bacteriophages inhibit and evade cGAS-like immune function in bacteria. 2022. In press, *Cell*.
2. Johnson MC, Laderman E, **Huiting E**, et al. Core Defense Hotspots within *Pseudomonas aeruginosa* are a consistent and rich source of anti-phage defense systems. 2022. *bioRxiv*. <https://www.biorxiv.org/content/10.1101/2022.11.11.516204v1>.
3. **Huiting E** and Bondy-Denomy J. A single bacterial enzyme i(NHl)bits phage DNA replication. 2022. *Cell Host & Microbe Preview*. doi: <https://doi.org/10.1016/j.chom.2022.03.025>.
4. Blazkova J\*, **Huiting E\***, et al. Correlation Between TIGIT expression on CD8<sup>+</sup> T cells and Higher Cytotoxic Capacity. 2021. *J Infect Dis*. doi:10.1093/infdis/jiab155.
5. Sneller MS, **Huiting ED**, et al. 2020. Kinetics of Plasma HIV Rebound in the Era of Modern Antiretroviral Therapy. 2020. *J Infect Dis*. doi: <https://doi.org/10.1093/infdis/jiaa270>.
6. **Huiting E** et al. Impact of Treatment Interruption on HIV Reservoirs and Lymphocyte Subsets in Individuals Who Initiated Antiretroviral Therapy During the Early phase of Infection. 2019. *J Infect Dis*. doi: 10.1093/infdis/jiz100.

## SELECTED HONORS AND AWARDS

- National Institutes of Health R21 grant (PI: Joe Bondy-Denomy; \$242,000/2 years), 2021
- UCSF Discovery Fellowship, 2020
- UCSF Benioff Center for Microbiome Medicine Graduate Fellowship, 2020
- National Science Foundation Graduate Research Fellowship, 2020
- National Institutes of Health Molecular and Cellular Immunology T32 grant Appointee, 2019
- National Institutes of Health Intramural Training Award (IRTA), 2017

## PROFESSIONAL DEVELOPMENT

- **Entrepreneurship and Biotech:** Frequency Bio Workshop (Pillar VC and Petri Bio), Fifty 50 Program (Fifty Years VC), Design Thinking Course (Colgate and Stanford University), Benton Scholars Program for global leadership and innovation (Colgate University)
- **Equity and Inclusion:** Allyship Learning Program (UCSF), Inclusive Research Mentor Course (UCSF)
